## THE PERFECT GLASS

---

We serve our wines in 125ml measures. Our tulip wine glasses are designed to hold this amount perfectly. The wine hits the apex of the curve of the glass, whilst filling the bowl allowing the largest surface area of wine to be exposed to the air so it can open up & breathe. The larger the surface area of the wine, the more aroma compounds can be released.

Using this small measure allows our customers to try more of our wines. This is what the concept of Wine and Wallop has always been about. We sell a range of wines by the glass from entry level to high end – which you don't always see in other places. We would love for you to leave thinking you had found a new favourite wine or having tried something you wouldn't usually.

## TAKEOUT WINE

---

### **All of our wines are available to takeout at off licence prices.**

This means you can find your favourite wine from our selection and take it home to enjoy with a meal or friends. Please ask a member of staff for details or if you would like to bulk order any of our wines. You will find the price as fair as at any other wine shop as we regularly compare.

To source the best possible wine for you we use a wide range of both local and international suppliers, nationwide wine auctions and direct buying. As a result of this occasionally we may have certain listings temporarily unavailable and possible vintage changes to those shown on this menu. Please ask your server.

## KEY

---

- (O) - Organic (Certified)
- (V) - Vegan
- (N) - Natural (no added sulphur, filtering or fining used)
- (B) - Biodynamic (Certified in accordance with a set of natural, holistic farming guidelines, please ask us about it, its fascinating!)
